### INVESTMENT OBJECTIVE & STRATEGY

The Fund's investment objective is long-term capital appreciation. The Fund invests mainly in stocks of U.S. companies, emphasizing those companies with above average earnings growth potential that is not reflected in their current market prices. These stocks typically provide little current income. The Fund's portfolio consists predominantly of mid- and large-cap stocks and may include stocks of foreign companies. Through its research, the Fund's advisor identifies stocks that it believes will outperform, over a three-to five-year time frame, the S&P 500® Index.
